EDUCATION

National Institute of Technology, Warangal

Master of Technology in Computer Science and Information Security

July 2023 – May 2025

CGPA: 3.08/4.0

Savitribai Phule Pune University

Bachelor of Engineering in Computer Engineering

Aug 2018 – May 2022

CGPA: 9.75/10.0

WORK EXPERIENCE

Deloitte

Engineer - Analyst

Jan 2025 – Present

Hyderabad, India

- Built automated ETL pipelines using Python and FastAPI processing 5M+ daily records, reducing data transformation time by 70% and eliminating 15 hours/week of manual work through schema validation frameworks.
- Developed data modeling tools that auto-generated documentation for 50+ database schemas, improving data engineering workflow efficiency by 60% and reducing design-to-deployment time from 5 days to 2 days.
- Optimized PostgreSQL queries serving 100K+ daily requests, achieving 85% faster response times through indexing strategies and implementing real-time validation checks for business intelligence dashboards.
- Engineered AI-powered data generation system using Azure OpenAI APIs with 99.9% referential integrity, creating 1M+ test records and reducing QA environment setup time by 80%.

TECHNICAL PROJECTS

Medical Image Classification Using Deep Learning & Reinforcement Learning

Python, PyTorch, CNN, Reinforcement Learning

Jan 2024 – May 2024

- Developed hybrid CNN-RL classification system achieving 94.3% accuracy on BreastMNIST and 91.7% on DermaMNIST datasets, improving rare disease detection by 18% over baseline CNN models through attention mechanisms.
- Implemented dynamic data augmentation strategy addressing class imbalance, increasing minority class F1-score by 23%.

Depression Detection via Facial Expression & Sentiment Analysis

Python, LSTM, CNN, NLP, Google Colab

Aug 2023 – Dec 2023

- Built multimodal depression detection model combining facial recognition and text sentiment analysis using LSTM-CNN architecture, achieving 89.2% accuracy on clinical validation dataset with 86% sensitivity.

Secure Multi-Node Communication System

C++, Cryptography (AES-256, RSA), TCP/IP

Jan 2023 – May 2023

- Designed distributed communication system with end-to-end encryption handling 1000+ concurrent connections, ensuring data integrity through RSA-2048 authentication and AES-256 encryption with zero security breaches.

TECHNICAL SKILLS

Languages: Python, C/C++, Java, JavaScript, SQL, Bash/Shell Scripting

Frameworks & Tools: FastAPI, PyTorch, TensorFlow, PostgreSQL, Git, Docker, Linux, Azure OpenAI, REST APIs

Data Engineering: ETL Pipelines, Data Modeling, Query Optimization, Schema Design, Data Validation

Core Competencies: Deep Learning, Machine Learning, Database Security, Cryptography, Network Security, NLP

ACHIEVEMENTS & LEADERSHIP

GATE CSE 2022 | AIR 895 | Percentile: 98.89 | Top 1.1% among 85,000+ candidates 2022

GATE CSE 2021 | Percentile: 98.25 | Qualified in 3rd year of undergraduate studies 2021

University Gold Medal | Rank 1 in B.E. Computer Engineering, SPPU | CGPA: 9.8/10 2018

Teaching Assistant | Data Structures & Operating Systems Labs, NIT Warangal 2024-25

Vice-Secretary | Rotaract Club, DYPIT Pune | Led 15+ community service initiatives 2020-21
